

## Tax Foreclosure Acquisition Program Property Search Worksheet

There are several steps to find a potentially eligible property. You can search through an online mapping tool for tax-delinquent properties. Tax-delinquent properties in Montgomery County, outside of the City of Dayton, are marked in the Land Bank’s property search tool, [GoGetProperties.com](http://GoGetProperties.com). The City of Dayton has determined that tax-delinquent properties inside the City of Dayton are to be pursued through depositor's foreclosure with the Montgomery County Treasurer's Office. A property will also need to be deemed as tax lien eligible, noted on the Treasurer’s website, in order to be eligible. See our [Go Get Properties Tutorial](#) on our website for more details.
